Why is the U S Government against new technology that entertains and educates people? Local radio stations have very limlited content and are overloaded with mindless commercials. Satellite radio provides variety and quality that are not available elsewhere. I PAY for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
